size: M - L - XL

Duck, Rice e Potatoes

# UNICA NATURA

NATURAL SUPERPREMIUM FOR DOG

## KEY FACTORS

## ARCHIEVED BENEFITS

Duck	Real ingredient with only 100% of dehydrated duck meat, without any mixture with lower-grade protein sources. It is an alternative meat that stands out for the high content of essential amino acids and powerful natural palatable substances.
Rice	It is the most digestible cereal that does not contain gluten. Therefore it is also suitable for intolerant pets.
Potatoes	The carbohydrates supplied are the most digestible for dogs, ensuring a good digestive outcome. They are also a source of vitamin C, potassium and vitamin B5, as well as carotenoids and phytosterols.
Pumpkin seed	Important multi-vitamin complex particularly rich in B group vitamins and phytosterols. The seeds are stone-ground to keep their properties intact. It is a considerable source of tryptophan, which is an amino acid barely present in the meat. However, being the precursor of serotonin, renown hormone having a calming effect, it is very important for the maintenance of psycho-physical well-being and the control of latent aggressiveness.
Rosemary	It develops a powerful natural antioxidant mixture, protecting food from lipid peroxidation, without the use of BHA / BHT and artificial preservatives. It is extremely rich in antioxidant substances such as carnosic acid and other bio-flavonoids, having anti-bacterial, anti-mutagenic and anti-inflammatory properties.
Banana	It has a special starch, resistant to the digestion in the stomach which, arriving intact into the intestine, promotes prebiotic effects, positively influencing glycemia and blood cholesterol.
